

Easy AV LED Strobe

Features:

- Easy to install in less than 3 minutes
- No need to replace existing sounder, base or wiring
- High output dual strength LED strobe
- Unique solution for DDA compliance
- Selectable flash mode and rate
- Available to fit Besson Banshee and Bedlam* Sounders

*Banshee and Bedlam are trademarks of Hosiden Besson Ltd

The Easy AV™ is the smart way to convert existing installations of Besson's Banshee and Bedlam* sounders to DDA compliant sounders/strobes. The Easy AV™ is an ingenious strobe ring that retrofits onto Banshee/Bedlam* products without the need to remove the existing wall mounted base or change the wiring.

The Easy AV™ is supplied with handy flying leads that allow quick and easy installation in less than 3 minutes - all you need is a screwdriver.

The Easy AV™ incorporates a high output dual strength LED strobe that makes it a cost effective solution for DDA compliance. As it is powered from the sounder circuit, the Easy AV™ requires no additional power supplies. Its low current consumption means that in most cases the existing sounder circuit supply current will be sufficient without the need to upgrade power supplies.

Easy AV LED Strobe

DATA SHEET

Technical Specification:

Rated Voltage (Vdc)	9-30
Rated Current @ 24V (mA)	2.5 - 6.0
Flash Output (W)	Low: 1, High: 2 - Selectable (Equivalent Xenon output)
Flash Frequency (Hz)	1 or 1.5 - Selectable
IP Rating (minimum)	IP43 to IP65, depending on product and base type
Temperature Range (°C)	-25 to + 55
Weight (g)	150
Colour	Translucent Red
Construction	V0 Thermo Plastic
