

ADSDUPIVRC
Vandal Resistant Indoor Dome
Housing

ADSDUPIHC
Indoor Dome Housing

SpeedDome® Ultra

Indoor Dome Housing

Features:

- Reinforced high impact design
- Vandal resistant option
- Compact, attractive design
- Four tamper-proof screws with driver bit supplied
- Ceiling, pole, roof, wall and corner mounts available

The SpeedDome Ultra indoor dome housing allows the SpeedDome Ultra dome to be installed indoors using the same design as found in the SpeedDome Ultra outdoor housing. It is available in standard and vandal resistant options.

The housing is made of a reinforced fiberglass high impact polycarbonate material along with a UV stabilized trim ring and top cover. The bubble assembly is affixed to the top via tamper-proof screws.

For applications where vandalism is a concern, a vandal resistant model is available which includes an aluminum sunshield cover and a high impact bubble which meets ANSI-87.1 impact safety standards. For additional protection a stainless steel bubble cage is provided.

Simply add an interface board, plug in the video cable, connect power and data, and install any SpeedDome Ultra. Diagnostic power and communications LEDs confirm proper connection and aid in troubleshooting. A variety of mounts accommodate the housing, making it easy to install.

The housing supports both the RUPTB and RUIOB dome bases (not included) and is supplied with either a choice of a clear or smoked bubble.

SpeedDome® Ultra Indoor Dome Housing

Model Numbers

ADSDUPIHC	Indoor Ultra Housing with clear bubble (f0)
ADSDUPIHS	Indoor Ultra Housing with smoked bubble (f1.0)
ADSDUPIVRC	Vandal Resistant Indoor Ultra Housing with high-impact clear bubble (f0)
ADSDUPIVRS	Vandal Resistant Indoor Ultra Housing with high-impact smoked bubble (f1.0)
