

Grade 3 Panic Button

Personal Attack Button

Features:

- Silent Operation
- FSL and D/P Connection
- Multiple Control Panel / Resistor Options
- Easy Connection of Multiple Units
- Anti-lock Reset Mechanism
- Independent Micro Switch Tamper (removal of cover initiates tamper signal only)
- Integral Storage for Rest Key
- Selectable Normally Closed or Open Contacts

All units are Grade 3 Double Push with integral resistors for use with most control panels or option for Double Pole. Spare terminals allow through connection for multiple units wired to one zone.

Special features include integral storage of reset key and anti-lock reset mechanism to ensure unit still operates if reset key is left in the unit and silent operation

Grade 3 Panic Button
