

# Vandalproof Metal Cabinet Loudspeakers

## SENTRY6/STC

The SENTRY range of vandalproof metal cabinet loudspeakers are constructed from epoxy coated high grade steel and can be installed on solid ceilings or walls.

The SENTRY6/STC contains dual cone loudspeakers offering a wide range for both speech and music applications

Supplied with dual gland entries which gives the installer the option of loop in loop out termination thus avoiding the need for a separate junction box, these cabinets are both robust and aesthetically pleasing.

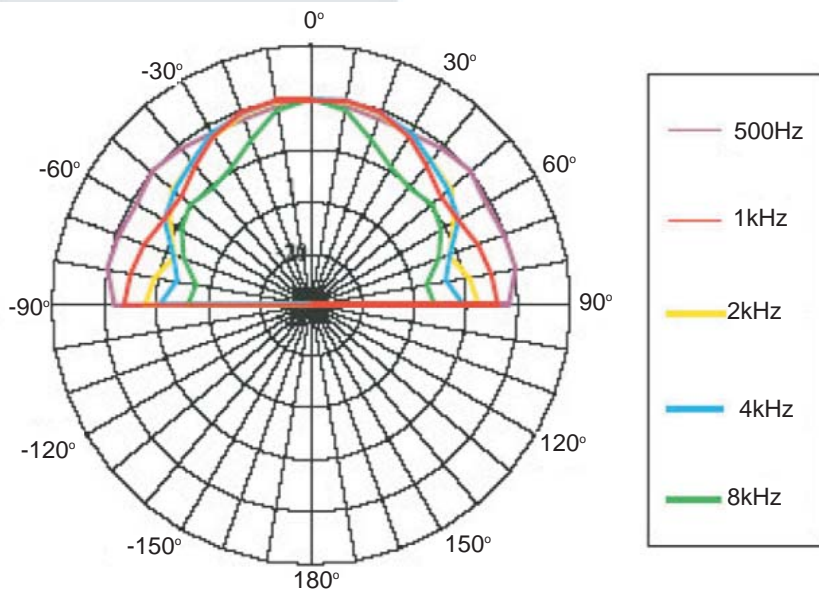

In compliance with BS5839 the SENTRY6/STC incorporates a ceramic terminal and thermal fuse and is, therefore, suitable for use in voice alarm applications.

Version SENTRY6/STC is surface mount. A flush mount version is available on request (SENTRY6/TBBC).
